

Sleek and stylish in design, Fire Magic's new Flush Mounted Doors offer many door and drawer options. Several models are in reduced in height to allow under-grill installation.

Flush frame mounted doors are available for that smooth, flush-finished look. The doors incorporate a specially engineered lip protector to prevent rain water from entering.

All Flush Mounted doors and drawers feature the substantial handle found only on the Echelon and Aurora Grills and companion pieces. Manufactured of 304 stainless steel, they are a perfect addition to any outdoor kitchen and are designed to provide ample storage, for cooking utensils, serve ware, spices and other grilling necessities.
