New and Improved Valley Oak G8 Vent-Free Log Sets

The Valley Oak G8 Vent-Free Gas Log set has been improved to provide better aesthetic appeal. A fifth log has been added and the burner porting configuration has been changed, giving a more realistic wood fire look. Additionally, a wood chip and a décor cover (to place on the metal front plate of the burner) are now included to blend the burner into the fireplace.

The new logs and burners are designated by adding an "E" to the model number (e.g. VO8E-**; G8E-***).

**NEW LOGS MUST BE USED ON NEW BURNERS; OLD LOGS SHOULD BE USED ON OLD BURNERS.
NEW LOGS CANNOT BE USED ON OLD BURNERS.**

Please check your inventory and let us know if you need some of the old product to balance what you have in stock. Old product will be available for a short time only, so it is important to place a balancing order soon.

If you have any questions, please call Tech Services at 800 332-3973.
